EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Musone on 3/07/2007

The application has been amended as follows:

- Claim 1, line 7, after "contact point of" --the flame to—has been inserted.
- Claim 8, line 10, after "contact point of" --the flame to—has been inserted.
- Claim 17, line 7, after "flame" --by an applied voltage—has been inserted.
- Claim 17, line 11, "a voltage" has been replaced by --the voltage--.
- Claim 17, line 11, after "contact point of" --the flame to—has been inserted.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: the prior art of record do not fairly teach in permissible combination the claimed limitations. In particular, with respect to the new limitations added by amendment on 01/26/2007, the closest reference is the Calcote et al "Electrical Properties of Flames" article where Fig. 6, shows some flames attached by the flame to burner at a sharp contact point. However, there is no evidence of a corona discharge at this location, nor is this flame apparently

turbulent. Hence, the claims present an unobvious combination to one of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
